

Spring-loaded automatic chime hooks are unique to Valley Craft drum trucks and offer drum handlers a safer and easier alternative. All drum trucks feature a standard chime hook. However, hooks come available in a variety of styles for effective handling of almost any type of drum.

**Standard Chime Hook:**

Spring-loaded hook automatically engages drum rim quickly and easily for safe loading & unloading. Comes standard on all drum trucks.

**Plastic Drum Chime Hook:**

Designed to drop over the bung hole projection on plastic drums. Also handles standard drums. May be used on aluminum frame hand trucks.

**Cable Hoop Chime Hook:**

For drums without a chime. A cable on the standard chime wraps around drum and secures to the truck.

**Fibre Drum Chime Hook:**

An extension of the standard chime hook allows it to reach 1" further and hook the rim of fiber drums. Also handles standard drums.

**Plastic Drum Chime Hook:**

Longer reach is offered to handle drums with locking covers. Handles standard drums and may be used on aluminum trucks.

**NOTE:** When ordering optional chime hooks, add the following letters to the model number:

**P = Plastic Drum Hook**  
**L = Locking Cover Hook**

**F = Fiber Drum Hook**  
**C = Cable Hoop Hook**

**Tire Options:**

**Pneumatic Tire**  
12 x 3 1/2"  
Disassembles to replace tire and tube.

**Molded-On Tire**  
10 x 2 1/2"  
Brakes not available with this wheel.

**Solid Rubber Tire**  
10 x 2 1/2"  
Standard tire on all drum trucks.

**Optional Braking System:**

Our unique braking system features a simple hand lever that operates brake bands equally on both load-carrying wheels, providing a safer and more efficient way to move heavy loads. These brakes give the operator complete control on ramps and inclines, and keep the wheels stationary while breaking over loads. Not available with molded-on solid rubber tires.
